REMARKS

Six unidentified aircraft were parked at Parchim (M 54/T 74) airfield on 16 February 1951, between 8:30 and 11:50 a.m. \*

25X1B The visibility was poor and it snowed occasionally. There was no flying. Soviet soldiers were apparently removing the snow from the runway. In the SW corner of the field about 25 men were digging a round pit which was surrounded by an embankment.

25X1A Comment. The aircraft type could not be identified. It is believed that one fighter regiment equipped with MiG-15s is stationed in Parchim.
